Venue	3M Technologies (Singapore) 10 Ang Mo Kio Street 65, #01-01 Techpoint, Singapore 589059
Dress code	No shorts or slippers

SYNOPSIS

With the explosion of concepts, techniques and technology in adhesive dentistry, polychromatic build-up with direct composites have for recent years been very successful in re-creating the most naturally looking results. However, this demands skills and effort which are often time-consuming, difficult to master and cannot be easily repeated. As a result, many dentists find it overwhelming and difficult to incorporate into their daily practice. This course shares the steps we can take to simplify daily practice of direct composites, making them quick, easy and repeatable by simplifying:

LECTURE (1.5 HOURS)

1. Shade Taking -- Getting it right.
2. Back to basics. Adhesion Protocol.
3. Restoring fractured incisors and refreshing discoloured fillings.
4. Cavity Preparation for optimal bonding, shade match and aesthetic results.
5. Finishing and Polishing Protocol.

HANDS-ON (3.5 HOURS)

A hands-on on Simplified concepts with the 3M's microhybrid system, the Z350

1. Build-up a Class III Restoration
2. Build-up a Large Class IV fracture for a 15 year old.
3. Finishing and Polishing.

Clinical Director, T32 Dental Centre

Course Director, T32 Dental Academy

Visiting Lecturer, National University Singapore, Restorative Department

Committee-Member, Singapore Dental Council Complaints and Disciplinary Committee

Chairman, SAORI Study Club (Singapore Academy of Rehabilitation and Implantology)

Former President and Founding Member, Aesthetic Dentistry Society Singapore

Former Chairman, Singapore Dental Association, Continued Professional Education Committee

Trainer & Educator for : 3M , Bisco, Straumann

Dr Bruce Lee is a well-established and highly regarded dental surgeon with more than 20 years of experience as a practitioner and has been the Clinical Director and Course Director at the T32 Dental Centre and T32 Dental Academy in Singapore since 2007.

Dr Lee also serves as Adjunct Lecturer in the Dept of Restorative Dentistry, National University of Singapore and he has held the position of been Chairman of the Singapore Academy of Oral Rehabilitation and Implantology (SAORI) - a Study Club based in Singapore where dentists both locally and internationally come together to share and learn from each other since his appointment in 2008.

Having served as the Past-President and Founding Member of the Aesthetic Dentistry Society Singapore (ADSS) and the Former Chairperson of the Continued Professional Education Committee of the Singapore Dental Association (SDA), Dr Lee's current appointments include serving in the Complaints and Disciplinary Committee of the Singapore Dental Council, Ministry of Health (Singapore), and as Trainer and Educator to dentists and their Team in Singapore and the region for World-Leading Companies in Dentistry: 3M, Bisco, Straumann, Dentsply Sirona and 3Shape.

Dr. Lee has special interests in Aesthetics, Implant Aesthetics and Digital Dentistry. His articles have been published in journals such as the Italian Dental Publication 'Il Dentista Moderno' in 2012 and 2016. He is regularly invited and engaged to conduct lectures and hands-on training courses both in Singapore and regionally (including Malaysia, Indonesia, Thailand, South Korea, Cambodia and the Philippines).

Dr. Bruce Lee completed his BDS degree at the National University of Singapore in 1997, where he was awarded the 'Drs Tay & Partners Gold Medal' for his outstanding academic and clinical performance. He was also the "Best All-Round" Final Year Student in the faculty of Dentistry.

Dr Lee has also trained in and attended attachments on Advanced Implant Surgery and Prosthodontics at the University of Toronto and Loma Linda University in Southern California. He continues to upgrade his skills by learning from world-leading experts in the field of Aesthetic Dentistry and attending courses and conferences internationally. In 2010 and 2011, he was attached to and attended courses on Porcelain Veneers at Dr Galip Gurel's office and training centre in Istanbul, Turkey.
